Leadership & Self Deception: Getting out of the box  
By the Arbinger Institute

Shows how most personal and organizational problems are the result of a little-known problem called "self-deception." This powerfully simple book/story gets right to the heart of the human dilemma. Why is it that we do the things that we don't want to do to the people it matter most. What is going on and how to get out of it. The work has had a remarkable impact on my life. It is a simple read, but when it hits it can hurt the soul and make you want to be better.
